

Guardian Privacy - Add privacy and a decorative touch to any window or door.

For homeowners who want sunlight to enter their homes - or a particular room, such as a bathroom - but wish to maintain privacy, Guardian offers acid-etched and textured glass.

- **Guardian Textured Glass** - Decorative glass in a variety of patterns
- **Guardian SatinDeco** - Acid-etched, translucent glass with an elegant "frosted" appearance

Each option, in its own unique way, enhances the beauty of any window, room or home.

Guardian Textured Glass

Textured privacy glass enhances the beauty of any living space.

Our textured glass creates subtly shifting translucent light and opens new opportunities for decorative freedom. Guardian textured glass is available in thicknesses ranging from 2.5mm to 12mm and can be tempered with certain precautions to account for variances in pattern design.

Guardian is the only North American producer of textured glass. We offer five popular textures that can add sophistication and versatility to any window or door where privacy is desired:

Bubble

Dew

Glue Chip

Niagara

Spraylite

Guardian SatinDeco

Translucent privacy glass that seems to glow from within.

Guardian SatinDeco is a beautiful, distinctive privacy glass that is manufactured using a proprietary acid-etching process. This process actually dissolves part of the glass, turning it from transparent to translucent. The result is an exquisitely smooth finish that disperses light and seems to glow from within.

Guardian SatinDeco is also versatile and easy-to-fabricate:

- Combine SatinDeco with ClimaGuard Low-E for increased energy savings during any climate or season. Its translucent appearance controls solar heat gain, and diffuses light, reducing reflectivity and glare.
- Helps projects qualify for USGBC LEED for Homes credits, as well as energy savings from meeting local and regional energy codes.
- Can be cut, heat-treated, bent, laminated, beveled, insulated and otherwise fabricated like standard annealed glass.

Double Glazed	Visible Light			UV Trans	SHGC	U-Factor	
	Trans	Reflect Out	Reflect In			1/2" Gap Argon	Air
80/70 + SatinDeco	79%	13%	13%	41%	0.661	0.272	0.316
72/57 + SatinDeco	70%	14%	13%	26%	0.465	0.255	0.299
70/36 + SatinDeco	69%	11%	13%	24%	0.381	0.248	0.295
62/27 + SatinDeco	61%	12%	12%	8%	0.277	0.246	0.293
55/27 + SatinDeco	54%	17%	19%	20%	0.276	0.246	0.294
53/23 + SatinDeco	52%	13%	13%	14%	0.225	0.244	0.291

Double glazed: 3.0mm Clr, 1/2" Gap, 3.0mm Clr: 100% Air and 90% Argon/10% Air Filled Units.
Primary low-E coating on the #2 surface and SatinDeco etched surface is on the #4 surface.
Performance data calculated for center-of-glass only (no spacer or framing) using LBNL Window 6 methodology.
