Jumbo coated glass capabilities from Guardian Glass help you deliver expansive glass exteriors that communicate confidence in design and fabrication.

JUMBO SIZE.

Enjoy the view. Where standard glass lite stock sizes are around 100 square feet, Guardian jumbo coated glass offers sizes up to around 217 square feet.

Size

- 130" x 204"
- 130" x 240"—special order

Thickness

- 6mm
- 8mm
- 10mm
- 12mm

JUMBO PERFORMANCE.

Blend light and energy efficiency on a grand scale. The following Guardian SunGuard® low-E coatings* are available for jumbo ordering:

- SunGuard® SuperNeutral® 68
- SunGuard® SNX 62/27
- SunGuard® SNX 51/23
- SunGuard® SNR 43

Additional, low-E coatings will be available soon.

* All current SunGuard coated products and stock sheet sizes will continue to be available.

JUMBO AESTHETICS.

Offer larger-than-life styles for any vision. Jumbo coated glass is available on these tinted and low-iron substrates on a made-to-order basis:

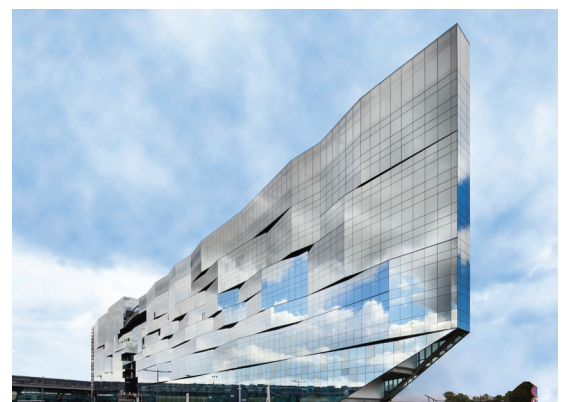

- Clear
- Guardian UltraClear® low-iron
- Gray
- Green
- Guardian CrystalBlue®
- Guardian CrystalGray®

NOTE: Not all float substrates are available with coatings in each thickness.

JUMBO EXPERIENCE.

Guardian Glass has years of experience manufacturing jumbo coated glass around the world. Our newest jumbo coater in North America helps glass accomplish everything standard glass does best—on a larger scale. Please see your Guardian Account Representative to discuss preparation for jumbo:

- ✓ Receiving
- ✓ Handling
- ✓ Cutting
- ✓ Processing
- ✓ Yield benefits
