OPACI-COAT-300® Water-based Silicone Spandrel

- Provides fallout protection at proper thickness
- Available in Mindful Materials Library
- HPD ready for LEED v4 Points
- Listed in Product MasterSpec

Improved aesthetics and energy efficiencies — those are just a couple of the key advantages of using SunGuard® Advanced Architectural Glass. With varying low-E and solar control performance, you can use SunGuard glass to create striking statements of light and color, all while helping earn LEED points and control energy costs. Easily paired with OPACI-COAT-300®'s vast color library to create your next stand-out spandrel project.
